Bridging the learning gap for Out-Of-School-Children *Migration and Quality Education*

9 year old Sunita's educational aspirations like many other Out-of-School-Children (OOSC) in the 80 Step-up Centers in Madhya Pradesh (M.P.), were beset by chronic poverty and inter-generational migration of her family. Her enrollment & education is a triumph of hope and faith & a huge stride towards education of OOSC and women empowerment for the tribal population of Jhabua and Barwani District in Madhya Pradesh.

Reducing the TB burden on India: [Read More](#)

Fighting against Tuberculosis

Addressing the overwhelming burden of TB infected population, HPPI has joined hands with The International Union against Tuberculosis and Lung Disease as an implementation partner in the project AXSHYA - Phase III. The chief aim of this initiative is to align with the goals of Revised National TB Control Program and take huge strides towards reducing TB mortality and morbidity in India.

Green Cover Management

Leveraging a vast network of pre-service & in-service teachers in HPPI's Teacher Training Programmes across M.P., U.P. & Haryana, a well planned environmental education programme is imparted to the children to ensure that they are not only climate-change literate but are equipped with the tools to adapt and mitigate climate change. Best practices for planting and caring of trees by children is the foundation of this learning.

BBC & HPPI bring focus to the issue of water scarcity in North India

BBC World Service, U.K., as part of their long running radio series on Chemical Elements visited HPPI's Green Action Neemrana Project in Rajasthan to bring focus towards the grave problem of water scarcity in India. Interviewing the farmers in HPPI's projects, it illustrated the water conservation methods adopted by HPPI to mitigate this problem.
